

How to Identify Your Academic Advisor

All **new students** see an advisor in Student Support (located above the bookstore). If you are a **continuing student** (i.e., about to enter your second or third or any subsequent semester), your advisor is a faculty member in your major department. To identify your advisor follow the steps below:

Step One: Log on to your My.LSUA account

Step Two: Once you're logged into your account, look to the right-hand side and you will see a rectangular box with your advisor's name and contact information.
